CENTER FOR MUSIC ENTREPRENEURSHIP

Focused on turning ideas into action, the Center for Music Entrepreneurship (CME) helps MSM students and alumni develop the skills needed to create opportunities for successful, sustainable careers. The CME provides "next step" mentoring and inspiration toward innovative career paths, income streams, and business models that are transforming the profession.

The CME is here to help you with:
- Paid music opportunities, especially through our Gig & Teacher Referral Services
- Competition, festival, and grant listings
- Internships
- Job search and career planning
- Entrepreneurial project coaching
- Fundraising and marketing plans
- Revising résumés, bios, grant applications, and more
- Career Resources

The CME also produces the Setting Stage career workshop series, with several events each month designed to help students boost their career prospects and options.

And the CME faculty offer three career-related courses for undergrads and grad students.
